## 1:1 CBD+CBDA

The Science-Backed CBD Formula

for

General Inflammation & Discomfort

Sleep & Restlessness

Stress & Anxiety

calm | relief | rest

★★★★★ -Kristin W.

I have taken several different brands of CBD, and Tanasi is by far the only one that has ever truly helped calm my anxiety. I will certainly be purchasing this again.

★★★★★ -Rebecca L.

I'm so happy with this product. I finally am sleeping more through the night. It's been hard to find something that works for me. Thank you Tanasi for all your research and getting us something that is safe and effective!

★★★★★ -Elijah S.

I have consistent back pain from being an athlete. I have used Tiger Balm, Biofreeze, Ikey Hot, you name it I have tried it. Tanasi is the only ointment that has shown long-term relief.

# CBD+CBDA

Several universities and independent parties have conducted studies to evaluate whether a 1:1 equimolar mixture of CBD and CBDA is more effective at suppressing elevated cytokine levels associated with inflammation than CBD or CBDA alone. The findings concluded that this 1:1 mixture of CBD and CBDA works **synergistically**, rather than simply additively when compared to the effects of CBD or CBDA individually.

These promising results prompted us to file a patent for our unique 1:1 CBD+CBDA formula, which is currently pending approval in the USA and has already been approved in the UK.

## Real Relief

In a University study with third-party verification, 1:1 CBD+CBDA, CBDA, and CBD were evaluated for their ability to suppress (reduce) the elevated levels of pro-inflammatory cytokines during an immune response to inflammation.

The results speak for themselves: 1:1 CBD+CBDA is **2X more effective** than CBD alone.

Effective relief for general inflammation plus:

- Soreness
- Arthritis
- Minor burns
- Muscles
- Aches
- Bug bites
- Joints
- Pains
- Dry skin

THC Free

Unlike THC, which has psychotropic effects, our 1:1 CBD+CBDA blend is non-psychoactive and works with your body's endocannabinoid system (ECS) — the network that regulates mood and stress. By supporting your body's natural endocannabinoid production, this plant-based solution helps restore balance, offering a safe and effective way to manage stress and anxiety without altering your state of mind.
